

Gypsy Moth Slow the Spread Spraying – Update as of June 30, 2007
Dept. of Agriculture, Trade and Consumer Protection

- Spray schedules depend on good weather and proper flying conditions. Plans may change or be delayed because of weather, logistical or mechanical problems. The dates listed below are estimates unless information has been posted after spraying within an area. Check for spray schedule updates on the gypsy moth toll-free hotline at 1-800-642-6684, then press 1.
- For updates on Dept. of Natural Resource’s Suppression spraying, visit their Web site at: http://dnr.wi.gov/org/land/Forestry/FH/gm/spray_areas/index.html or call the hotline at 1-800-642-6684 and press 2 to be transferred to the DNR Suppression program.
- Product information is available on our Web site at <http://www.datcp.state.wi.us> then click on the link Gypsy Moth Spraying under Agency Topics. If you do not have Internet access, call the hotline and press 3 to speak to staff during business hours or else stay on the line to leave a message.
- For Slow the Spread projects, we make two applications of Btk, 5-10 days apart; one application of Gypchek (NPV) and one application of pheromone flakes.
